To Whom It May Concern,

I am writing to recommend Mr. Hussain Wasif Latif. He worked with us at Litro International Limited as a frontend developing intern and reported to me.

Wasif is an independent worker, which demonstrated his ability to work with minimal guidance. He was assigned to develop a backend API server, which he has no experience before. He was able to complete all the fundamental functionalities within the given timeframe.

Wasif demonstrated his excellent communication skills and learning attitude. Even with unfamiliar topics, he was able to pick up the necessary techniques and skill to complete the task. He was also able to express his concern and doubt clearly when there was any unclear/questions appropriately. Due to the limited duration of his internship, his potential for being an excellent software engineer are yet to be fully explored.

Should you have any further questions about Wasif or want to discuss his qualifications further, feel free to reach me at tom@litro.life.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'Tom Chan', with a stylized, flowing script.
